C#	HTML	Firebase	Git
JavaScript	CSS	MySQL	Windows
Python	Vue.js		VS Code
Java	Node.js		Microsoft Office
Php	Lavalust		

EXPERIENCE

On-The-Job Trainee – Ollopa Company September 2024 – October 2024

Contributed to the development of the Game Design Document (GDD) by authoring key sections that outlined the game's core mechanics, control systems, and user interface/user experience (UI/UX) flow, ensuring clear design direction and smooth player interaction.

On-The-Job Trainee – Infinitech Advertising Corporation January 27, 2026 – April 29, 2026

- **Full-Stack Feature Engineering:** Engineered and maintained core web application features for Abic-Realty using Laravel for backend RESTful APIs and React.js for an interactive, responsive frontend.
- **Module Development:** Built custom Accounting and Administrative modules to streamline property management, financial tracking, user role permissions, and internal reporting workflows.

- **Database Design & Architecture:** Designed, structured, and optimized MySQL database schemas, executing efficient queries and migrations to ensure high data integrity and performance.
- **API Integration & State Management:** Integrated secure REST APIs between Laravel and React, implementing seamless data fetching, client-side validation, and state management for optimal user experience.

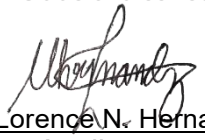

Social Media Marketing / Virtual Assistant | Remote May 5, 2026 – August 13, 2026

- **Multi-Account & Multi-Platform Management:** Set up, configured, and maintained a large-scale ecosystem of social media accounts across Instagram, Threads, Facebook, YouTube, and X (Twitter) tailored to specific niche target audiences.
- **Content Scheduling & Publishing Workflows:** Executed automated publishing and content distribution schedules, managing multi-account posting workflows to maintain consistent branding and high audience engagement.
- **Algorithm Warm-Up & Niche Engagement:** Implemented strategic account warm-up procedures—including targeted niche interaction, deliberate engagement patterns, and activity pacing—to optimize organic reach and safeguard account health across social algorithms.
- **Video Editing & Creative Production:** Produced and edited engaging short-form and long-form video content optimized for platform-specific algorithms (Reels, YouTube Shorts, and X media).
